## Welcome to ISAP 2018

The 23rd International Symposium on Antennas and Propagation (ISAP 2018) will be held during October 23~26, 2018 at Paradise Hotel Busan, Busan, Korea.

We hope to provide an excellent forum for interaction and developing friendships with participants from various countries from various continents, who are involved in research, development, engineering, manufacturing and application of Antennas and Propagation.

We, Local Organizing Committee of ISAP 2018 are delighted that ISAP will be held back at Korea after the 2005 (Seoul) and 2011 (Jeju). We hope you will come and enjoy the Symposium in Busan, the top convention hosting city in Asia and also the international prestige tourism city.

## Busan

Busan is located on the southeastern tip of the Korean peninsula. The natural environment of Busan is a perfect example of harmony between mountains, rivers and sea. Busan is the second largest city in Korea. Its deep harbor and gentle tides have allowed it to grow into the largest container handling port in the country and the fifth largest in the world. The city's natural endowments and rich history have resulted in Busan's increasing reputation as a world class city of tourism and culture, and it is also becoming renowned as an international convention destination.
